Tautological cycles on moduli space of IHS manifolds

by

Prof. Zhiyuan LI

Fudan University

Abstract

I will discuss some questions in the cycle theory of moduli space of polarized IHS manifolds, such as generalized Franchetta conjecture and tautological conjecture. Besides, I will talk about the properties of the tautological and their applications. This is a joint work of Nicolas Bergeron.

Date: Thursday, 28 September, 2017

Time: 11:00a.m.-12:00p.m.

***Venue: Room 4475, Academic Building
(near Lifts 25 & 26), HKUST***

All are welcome!
