Lecture Series

Mini-course on Givental--Teleman's classification of semisimple Gromov--Witten theories

by

Prof. Yuan Pin LEE University of Utah

Abstract

In this lecture series, the basics of Givental--Teleman classification will be explained, with emphasis on the roles played by the symmetry group (twisted loop groups, R-matrices etc). Only basics of Gromov--Witten theory are assumed.

Lecture 1 Time: Venue:	Tuesday, 12 March 2019 10:00a.m 12:00p.m. Room 5510, Academic Building (near Lifts 25-26), HKUST
Lecture 2 Time: Venue:	Wednesday, 13 March 2019 10:00a.m 12:00p.m. Room 5564, Academic Building (near Lifts 27-28), HKUST
Lecture 3 Time: Venue:	Wednesday, 13 March 2019 2:00p.m 4:00p.m. Room 4475, Academic Building (near Lifts 25-26), HKUST

All are welcome!
