

**THE HONG KONG UNIVERSITY OF SCIENCE & TECHNOLOGY**

**Department of Mathematics**

**PHD STUDENT SEMINAR**

**Primitive FJRW via MSP**

**By**

**Mr. Zhiyong WANG**

**Abstract**

The Mixed-Spin-field theory is applied to compute the first nontrivial genus two primitive Fan-Jarvis-Ruan-Witten invariants. In the seminar lecture, the speaker mainly report on the localization contribution in the language of R-matrix action.

**Date : 11 Jun 2020 (Thursday)**

**Time : 3:30pm – 4:30pm**

**Zoom Meeting : <https://hkust.zoom.us/j/99461110239>**

*All are Welcome!*
