

LEUNG, S.

The questions were:

1. How would you rate your instructor as an effective teacher ?
2. How would you rate the availability and helpfulness of your instructor outside of the classroom ?
3. What is your rating of this course independent of the effectiveness of the instructor ?

 151A Sec. 2a 40 Enrolled, 25 Responded (62.50%)

Question	Distribution										Avg	Stdv	Cum Avg

WINTER QUARTER 2002

LEUNG, Shing-Yu

MATH 151A, SEC 2A

9-7-8

Action packed discussions, this man is an animal! Awe inspiring math skills. The Chuck Norris of the math world, if you please.

9-0-6

Never had a need for office hours because his discussions were highly effective.

9-7-6

He was an excellent TA. He always helped us understand concepts, he explained homework problems, and was a great TA. His teaching style is helpful, clear, and understandable.

7-6-6

Mr. Leung was always to class on time and always prepared. Very knowledgeable about the material. Sometimes, he would let the course run beyond other specified time limit.

9-9-7

The best T.A. I ever had. He knew his stuff, had his discussion planned ahead, and made himself available when needed. Had a great teacher and was pleasantly surprised that the TA was so good too. Wish he was my TA for all classes

9-9-5

He was the best TA I've ever had at UCLA. Very effective, helpful and concerned with students. Without his aid, I would not have done as well or understood as much.
Thanks Shing-Yu.

8-8-7

Mr. Leung was very helpful – very organized classes and he explained things very clearly.
He had a lot of office hours & was always willing to help. Very easy to approach & helpful. Very good!

9-7-8

The teaching style of TA was terrific.

7-5-5

Tries to explain and clarify all concepts and Homework problems. Helpful.

9-9-9

He explains the materials well.

7-7-5

Provided great help with concepts and homework. Good Job!

9-9-8

Shing is a great, smart, and helper T.A.

9-0-8

Very efficient: always manages to explain all homework problems within the allotted discussion time.

7-7-8

Explains problems well and does many examples. One of the better TAs I've had.

WINTER QUARTER 2002

LEUNG, Shing-Yu

MATH 151A, SEC 2A (Cont'd)

8-7-7

I loved your discussions, very informative. I just wish I ????? you more during your office hours.

9-9-8

Shing-Yu is a very nice TA. he has a great knowledge in math and very helpful to students.

8-9-7

Is very organized in his presentations, presents the material well & is very helpful

9-8-9

Shing-Yu was an excellent TA. He had great communication skills and demonstrated an obvious mastery of the course material.

9-8-8

Shing-Yu was a very helpful TA. He was always prepared for section and he explained things very clearly. He never assumed that we already knew something, he took care to explain every detail.

9-9-9

Shing-Yu was very helpful with this class. His discussions are very thorough and relates to the lecture

9-9-6

You have been incredibly helpful. If it weren't for your help w/ hw during Discussions, this class would be extremely difficult and confusing. I would want your teaching methods to stay the same. Thank you!

8-9-3

Most of what I learned was through the HW, and Shing-Yu did a great job presenting the material and going over the HW. The one lecture he gave substituting the professor was excellent as well. Thanks!

9-0-8

This TA was excellent! One of the best I have had at UCLA. He clearly explained all concepts and went beyond the scope of the problem to help us understand more. I understood all of the homework problems thanks to him. He lectured once for the professor and was a natural. He definitely needs to teach math courses. Would be wonderful!

8-0-8

Thanks for going over the homework problems, it was easier to understand.
Also thanks for responding to emails on time! You are a great T.A.
Good luck with your PHD. -.

MATH 151A, SEC 3A

9-9-7

exams are reasonably hard
I enjoy TA sections because I learn more from the TA. He is good at using natural way to explain difficult concepts.

9-9-9

Very helpful with homework, but goes through the material very fast in lecture. Good TA!
explains the material very well

WINTER QUARTER 2002

LEUNG, Shing-Yu

MATH 151A, SEC 3A (Cont'd)

9-9-9

Best TA ever!!! Goes through material very very fast, but still understandable. Very knowledgeable. Helped me a lot

9-9-6

He's a great TA, very effective teaching.

8-6-6

He seemed to like what he was doing.

Good for him.

Myself, I hated this class, But he was cool.

8-8-3

Good job! I never understood anything the professor was saying, but you usually cleared things up. I wish you were the prof instead. Your attitude was great too. Thanks for a great discussion

8-8-8

TA was very student friendly and helpful in office hours.

7-7-6

Very helpful and thorough in discussions, very knowledgeable.

7-6-6

Good TA. Helpful without giving away too much

7-0-7

TA teaches clear concepts of this course material.

9-9-9

Our T.A. was really good. And helpful.

9-9-9

He is great.

9-8-7

Shing is a nice guy who knows a lot

It is very effective!

9-9-8

he was good all around. helped in every way. I really learned the material

He cared if we learned, and it really showed. BRAVO!

9-9-9

Very knowledgeable and helpful outside of class.

8-0-7

G?RAFFES ARE KEWL

9-9-6

I think Shing-Yu is very helpful and nice ☺

WINTER QUARTER 2002

LEUNG, Shing-Yu

MATH 151A, SEC 3A (Cont'd)

8-8-6

A pretty good T.A. He knows his information compared to other teacher assistants,
Very nice and is available often

8-8-7

I really liked our TA. He was a very good teacher. My only suggestion is that he improve his English.

9-9-9

He is very helpful and very nice, I like him a lot as a T.A. He's number one on my list!!!

9-9-8

He is the nicest TA and great TA!

9-9-7

He's wonderfully attentive to his student. Always displays a positive attitude towards his class and is willingly helpful.

☺ Wonderful T.A.

LEUNG, S.

The questions were:

1. How would you rate your instructor as an effective teacher ?
2. How would you rate the availability and helpfulness of your instructor outside of the classroom ?
3. What is your rating of this course independent of the effectiveness of the instructor ?

SPRING QUARTER 2002

LEUNG, Shing-Yu

MATH 33A, SEC 1C

8-7-6

He was very well prepared. Explained things very well, sometimes better than the professor.

7-0-5

I don't like to take weekly quizzes that are straight from the homework. I would rather have a weekly homework assignment that we would turn in. The weekly quizzes are all about memorized so I do not see any value in them.

9-9-4

I am very pleased to have a TA that not only knows his mathematics, he can relay this information to its students very well. I learn more from this TA than from the professor himself.

9-8-6

The TA was excellent. He really helped clear up a great deal about the subject during section. However, since we had to take quizzes in section we did not get sufficient time to review the material.

8-8-8

Shing-Yu is very helpful and will stop the class to make sure you understand the material. ☺

8-7-8

Overall Shing-Yu is a great TA. He is excited about the subject and enthusiastic about it. He does his best to ensure that his students learn the material. His presentations are well prepared and easy to understand. I would recommend him to all of my friends

8-5-3

The TA's office hours conflicted with classes – they should be at times where class is not likely in session
The TA hasn't held any review sessions for tests – this would have made him much more effective
The TA is better at teaching the material than the professor

9-0-7

He explains everything very clearly, I learn more from him than from the professor! He makes sure we understand the materials before we take our quiz very very friendly!

8-8-7

Leung is a very good TA. Explains the concepts well.

6-0-5

Explanations are usually rushed and assumptions are made that students understand the material already. Just try to slow down.

MATH 33A, SEC 2A

6-7-7

It's hard to determine the effectiveness when we have a quiz in discussion as well ...

6-0-7

He was a good TA and knew his material. He was very nice in answering questions. Difficult to understand sometimes.

6-6-5

This T.A. really knows his linear algebra. If it wasn't for the accent, he would have really helped me out, but what can you do?

SPRING QUARTER 2002

LEUNG, Shing-Yu

MATH 33A, SEC 2A (Cont'd)

7-0-6

It's nice how he does some problems from the book that relate to the homework

9-9-8

excellent TA! very clear and thorough!

8-0-5

He is an excellent TA. He knows what he is talking about and explains things fully.

8-7-7

This guy is on another level, He's so much better than our other TA, fire her and keep him.

7-6-7

- solid instructor, very good pace of teaching of material

7-7-6

He tries hard to explain. He understands the concepts ??? has trouble
Sometimes conveying it in a clear and effective manner. His acce?? Is ok. Great guy

8-8-7

He was a cool TA and was helpful with the material. He was also very knowledgable.

6-6-1

This is the 9th week and I have no idea what is the ???? ? 33-A. In 32a & b ??? was hope.

5-7-6

The TA was cool, the only thing I would say he needs improvement on is the section of problems. He does not do enough hard ones. It would also help if he explained the concepts 1st! Overall, he was great!

7-9-6

Shing-Yu is a great TA. He caus a lot about his students. He is helpful in his office hours. He is extremely patient.

MATH 33A, SEC 2B

9-9-7

Fantastic TA, sometimes he tends to go a little fast through problems & skips some steps, but that is rare and hardly ever happened. All in all, I wouldn't mind having sex with him. He has ravishing good looks and an intellect second to none.

7-8-8

Very open & helpful about helping student w/ questions

7-5-5

Good TA, only problem is that quizzes take half the time of discussion. So, ineffective but good that he does lots of examples and is as clear as possible.

7-0-4

Posting discussion notes on web was helpful.

SPRING QUARTER 2002

LEUNG, Shing-Yu

MATH 33A, SEC 2B (Cont'd)

7-6-4

Sometimes explains thing really fast. Would like for T.A to spend more time on concepts then going over hw problems. Would like to have review sessions for midterms and finals

8-9-9

Accent's sometimes hard to understand but he's very helpful

9-9-9

Werry Good!

9-9-6

The TA was very friendly and helpful. He was generous with his time after section.

8-0-7

Good job on the part of the TA. Tried hard to assist the section.

8-8-8

very good TA, but need to Work on his English.

6-8-2

Always willing to help. Even an non-office hours

9-9-6

very helpful and also very knowledgeable of the subject. Was excellent at giving help outside and during class.

6-5-5

Shing worked out enough examples in class. Overall he was an o.k. T.A.

6-8-7

The TA was my helpful → informative.

7-7-7

nice TA, nice book.,

He answers the question ppl asks.

7-7-7

friendly, answers questions knowledgeably

8-7-7

very clear, and explanations are good

8-8-7

Very friendly and easy to approach. Organized sections, takes care of business

9-9-6

Very helpful and kind. Always willing to help Good Job!

4-4-2

Can't understand him sometimes talks too fast., unclear but tries to be helpful.

SPRING QUARTER 2002

LEUNG, Shing-Yu

MATH 33A, SEC 2B (Cont'd)

8-8-9

Shing-Yu Leung is one of the better T.A's I have had for any of my math courses. He explains how to solve the problems carefully and clearly and helped me understand the material and problems better. If I could have him as a T.A again I would

7-8-5

Shing-Yu Leung is very approachable and that makes it easy to get Questions asked. He is patient and clear at his Explanations.

8-8-7

- responsible, nice guy, recommended.
- effective and clear in discussions
- organized, discussion, but need a little more organization in writing on board.

7-8-9

Was a very effective ta. Willing to help in OH and after section.

When explaining problems sometimes may assume the students understand more than they do.

9-9-7

Shing-Yu is an excellent TA, knows how to teach the material very well. His explanations are clear-cut and to the point.

9-8-8

Excellent TA, clearly knows the material, teaches well, posts discussion notes online (extremely helpful)

MATH 33B, SEC 3C

6-8-7

You should slow down, that way the whole class can follow and you don't make so many mistakes. Other than that you are doing a good job.

6-6-7

Good TA, but can work on solving more problems & explaining theory more extensively

8-8-6

Leung is very excited to do math. He comes prepared & wants to help us learn. He is very patient & helpful & I would definitely want him as a T.A. again.

3-0-5

He made a lot of mistakes during discussion & it really confused me ☹️ But I suppose he got the right ans/procedure at the end. At least he tried really hard to help us ☺️

6-7-6

He was very approachable and helpful during office hours.

9-7-8

Very good TA

9-9-9

Very kind & helpful!

Mathematics Teaching Assistant Evaluation
Fall Quarter 2002

LEUNG, S.Y.

The questions were:

1. How would you rate your instructor as an effective teacher?
2. How would you rate the availability and helpfulness of your instructor outside of the classroom?
3. What is your rating of this course independent of the effectiveness of the instructor?

FALL QUARTER 2002

LEUNG, Shing-Yu

MATH 1, SEC 1A

8-9-8

Answers questions we have with any problems we encounter, very helpful and nice to students

6-7-7

Shing-Yu is a knowledgeable TA. Class is dry but so is Math. He knows what he is doing, that's what really matters.

7-9-8

TA very knowledgeable any effective with material. However language (English) was sometimes hard to understand

5-0-8

The TA is hard to understand through his accent, and he moves through problems too quickly. I put N/A for question 2 because I haven't tried to seek assistance out of class

4-0-6

The TA was confusing at times. He assumed we knew things we didn't, which made it hard to follow what he was doing. My professor (Walters) was excellent. He really cared about our grades. He made himself available before class, after class, & for review sessions. Good job.

5-0-6

Friendly and available to students but sometimes difficult to understand

9-3-7

Shing-Yu Leung is really good at explaining the math and I found sections to be helpful. However, before the 1st midterm I needed my homeworks to study and I had to ask many times, e-mail him and hunt him down with no response. I felt I could have done better on the test had I been given my homeworks back like everyone else. He did, however, have them for the 2nd midterm.

5-0-5

The TA was very friendly & provided assistance whenever asked for.

7-4-7

I wish the TA took more time in thoroughly going through each step of problems solved in class rather than rushing through it as if pressed for time. Quality over quantity of problems, please.

9-9-9

Leung is a very good math teacher assistant who explains the problems with ease and has no problems asking my questions.

9-9-9

Math I has been a great class to really adjust to college tests and grading. The help in discussion has been outstanding and really improves my understanding of the homework and my study habits. Both my professor & my TA made themselves readily available for questions/ concerns. This was the best class experience I had for my first quarter of college and I hate math!

MATH 1, SEC 1B

7-5-7

This teaching assistant was very helpful as well as very clear when explaining questions at discussion. Overall, he was excellent at explaining any questions the students had.

FALL QUARTER 2002

LEUNG, Shing-Yu

MATH 1, SEC 1B (Cont'd)

7-5-7

This teaching assistant was very helpful as well as very clear when explaining questions at discussion. Overall, he was excellent at explaining any questions the students had.

7-7-8

He explains the material covered in class in depth. The fact that he goes fast is a really good thing.

9-9-5

He is able to help us with the homework when asked

6-5-6

I thought that the T.A. was very dedicated and likes to do what he does. At times he went a little too fast and lost me, so maybe going a little slower might help overall he is a good T.A. and nice too.

8-9-6

I thought that Shing Yu Leung is a very good TA. He's very helpful and comical as well. I enjoy having him as a TA because he seems extremely dedicated towards his work. ☺

5-0-9

I think Tom Walters is an excellent professor. I just have a hard time following Leung, he is kind of eccentric in thought and teaching.

8-0-9

The T.A. for this course is very good. He teaches the material very well and makes some of the unclear parts easier to understand.

5-0-5

Leung, Shing-Yu is an excellent smart person, but when it comes to teaching he lacks the ability to explain correctly, sometimes it is confusing to understand as he skips small little steps that are crucial to see. Other than that he does fulfill the overall T.A. requirements

4-5-4

The TA does not thoroughly explain problems in discussion.

7-6-6

He was a good T.A. He explained math in a different way that helped to make us understand better.

7-0-8

I liked his explanations and how he was organized all the time. He made clear some of the material that was unclear to me.

7-7-7

The T.A. has a good way of explaining and is always willing to answer any questions.

7-8-7

Although he has a heavy accent but he is very patient and nice. Overall he is a very effective T.A.

8-8-7

Shing-Yu Leung really knows how to explain questions asked of him. I understand how he explains each problem.

FALL QUARTER 2002

LEUNG, Shing-Yu

MATH 1, SEC 1B (Cont'd)

5-5-7

Helpful with going over assignments, but often unprepared when asked a question that was not prepared ahead of class.

5-7-7

He seemed like he really loved math and enjoyed explaining it. But he would sometime explain things using concepts we didn't know. His explanations were sometimes confusing, but overall the class and the T.A. were good.

MATH 31B, SEC 3E

7-0-1

The professor is not effective in explaining course materials during lecture. First exam was too easy, 2nd was too hard. The textbook is the most useful.

8-9-4

I think the T.A. is very smart and explains things well despite his speech impairment (not too much of an English speaker)

3-2-1

Needs more office hours

Review more questions similar to quizzes

7-6-9

Tim is a mighty creative man, nice too

7-7-3

He's good hearted, but a bit hard to understand. Not the best math teacher I ever had, but, he did a pretty good job.

8-8-8

Tim acted as a very effective TA throughout the quarter. Every section acted as an important review session for the lectures. I found that if I got lost in lecture I would always be able to catch up in section.

8-8-8

He's very funny and very helpful. He is a good TA

7-5-1

The math department should inform us on what sections the quizzes are on & not give midterms in scantron so that we get partial credit.

5-3-1

I hate this class and both the discussions and the lectures do not help me. They are both a waste of time and I wish I could fake independent study for this class. The websites need to be updated!

4-3-2

I didn't really like how he'd have to ask us if the problem was right or not. Shouldn't he know how it is solved. That is why we are asking him, cause we didn't know.

7-3-2

I think quizzes are unfair and unnecessary. Plus, it takes up all the time from discussion, which destroyed the purpose of having a discussion!

FALL QUARTER 2002

LEUNG, Shing-Yu

MATH 31B, SEC 3E (Cont'd)

5-5-3

The professor and TA should take the time to make sure the students understand the material. In both lectures and discussions, I feel rushed.

7-7-3

I hate this class, but Tim is nice.

0-0-0

I want to chop off his gay ponytail.

MATH 31B, SEC 5C

6-8-5

The TA is kind of hard to understand, it ?????? ??????
Comes to class unprepared.

4-7-4

More structure/ clarity needed.

8-5-4

The lectures are very ineffective. I have learned little in lectures. However, the discussion sessions are helpful and more realistic to the tests and midterm. Leung did an excellent job!!!

7-6-6

Generally did good job.

9-8-6

Very friendly and helpful, doesn't talk over our heads and makes sure we understand the material. Very helpful, covers important topics that the professor overlooked.

0-6-6

Helpful, but because we had quizzes the sessions seemed to be a bit rushed – making it difficult to grasp all information.

7-0-6

I feel that the TA was effective. I dislike being quizzed on new material without the time to homework

6-0-5

Works too fast, needs to field questions better

7-0-6

He tries to make sure everyone understands the concepts. If anyone has a question he makes sure they are answered and that they now understand. He teaches us in the discussion that which we do not learn in the lecture.

9-0-6

My TA taught the subject better than my professor. I learned more in section about the material than in lecture.

9-9-9

This TA is the best and most awesome TA I had. He is helpful, caring, and very concerned. I would recommend him to any TA position. I am really going to miss this TA. I hope I can have him as my TA again here at UCLA. I thank the math department for choosing him.

FALL QUARTER 2002

LEUNG, Shing-Yu

MATH 31B, SEC 5C (Cont'd)

3-0-4

I honestly believe that communication b/w students & teachers is important, and that this is hindered when there is a language barrier. Not only in our discussions, but also in our lectures, there are many professors & T.A.'s who speak w/ too thick an accent or who don't understand well enough to teach @ ???? full ability

8-9-6

He was helpful.

2-0-6

The TA would skim through using short-cuts he knew that made the problems more confusing. Language barrier a problem sometimes.

4-5-7

Its hard to understand what he is saying, he knows the math, yet he cannot communicate it well. He goes too fast and doesn't take time to explain the procedure

5-5-5

This was a decent discussion group. Yada yada yada

6-7-4

Always prepared, sometimes too many mistakes, because you were going too fast slow down. So that we can all keep up w/ you other than that you were a good TA.

5-7-4

I would have appreciated it more if you could have went over your example problems step by step instead of skipping steps without explaining the reasons.

3-3-3

At times he would seem to lose track of what he was doing and would have to back track. Does a lot in his head that wouldn't seem obvious to me. Loses focus but is always in a good mood showing up to class

Mathematics Teaching Assistant Evaluation
Winter Quarter 2003

LEUNG, S.Y.

The questions were:

1. How would you rate your instructor as an effective teacher?
2. How would you rate the availability and helpfulness of your instructor outside of the classroom?
3. What is your rating of this course independent of the effectiveness of the instructor?

Math 164, Sec. 1A - Optimization

	Distribution of Scores											Avg	Stdv
	Blank	NA	Failing 1	2	3	4	5	6	7	8	Excellent 9		
Ques1	0	0	0	0	0	0	0	0	2	3	7	8.42	0.79
Ques2	0	0	0	0	0	0	0	1	3	3	5	8.00	1.04
Ques3	0	0	0	0	0	0	1	2	5	4	0	7.00	0.95
16 Enrolled 12 Responded (75.00%)													

Math 164, Sec. 2A - Optimization

	Distribution of Scores											Avg	Stdv
	Blank	NA	Failing 1	2	3	4	5	6	7	8	Excellent 9		
Ques1	0	0	0	0	0	0	0	0	2	9	5	8.19	0.66
Ques2	0	3	0	0	0	0	0	1	0	6	6	8.31	0.85
Ques3	0	0	0	0	1	1	2	2	3	3	4	6.88	1.89
29 Enrolled 16 Responded (55.17%)													

Blank - Student left question blank

NA - Student marked Not Applicable

Math 164, Sec. 1A - Optimization

8-8-8

Shing you does a great job explaining the general concepts as well as the homework. I would recommend him as a T/A for other students.

9-9-8

Shing-Yu was a great TA - very good at explaining concepts & clarifying any questions anyone had! Thanks!

8-8-8

Great job. You are one of the most helpful TA in MS.

9-9-6

TA was very helpful bot h inside and out of class

7-7-7

Textbook needs more examples, answers to odds in back would be nice
TA very good and knoledable, well-prepared.

7-6-7

The TA had an excellent grasp of the material. He was quite good at explaining difficult concepts ??d was very helpful in office hours.

9-9-6

The T.A was great. He never wavered on theory, yet gave lots of useful examples and hints. He knew the material well and was always well prepared.

9-9-7

Shing-Yu is one of the most helpful TA I've ever had in the mathemtics department. He is willing to help out all the time.

Math 164, Sec. 2A - Optimization

8-9-9

Good Job. Covered a very decent portion of the non-turn in problems which helped.
Was prepared.

One pointer would be to engage the class further by letting them answer some questions. I know this doesn't always work well otherwise ??? Job

8-8-6

Sometimes goes a little fast with board work, doesn't necessarily touch on all the difficult problems for the HW.

9-9-7

Shing-Yu Leung is a great TA. He has been very helpful on teaching us the material and he is a great help on assisting us to do the HW.

8--6

I thought you did a great job preparing examples from the book that were both like exam problems and helpful for the homework. Thanks!

9-9-9

good

Winter Quarter 2003

LEUNG, S.Y.

7-6-3

Good job teaching, maybe you could do some more examples in discussion.

8--5

Shing-Yu was an excellent TA. We always covered a lot of material in discussion section. I never went to his office hours, but I definitely felt welcomed.

8-8-4

Leung has a very positive attitude when teaching the discussions. He was extremely organized and thorough when explaining everything to us. His discussions are very helpful for the homework and he helps to condense the lecture into simpler terms. His discussions were very enjoyable.

9-8-8

Explained topics covered in lecture very well. Came to discussion prepared and organized

9-9-9

This TA is the best TA I have ever met. He gives efficient/ good examples during discussions and I could easily find him during OH. A very good TA

7-8-5

TA was always helpful during office hours. More examples or homework problems being covered in discussion might have been more beneficial.

8--8

It would be helpful at times if we could ask our specific questions for you to do. Although, I admit, you are very good at picking questions to demonstrate the material thoroughly.

8-9-7

Shing-Yu is a good teacher who has good knowledge of the material. He's always willing to help, especially in Office Hours. I like how he doesn't just give you the answers but instead gives hints on how to do things.

8-8-8

TA was very helpful. Discussions were excellent, reviewing concepts and doing examples. He could be a little more clear when he's doing proofs. Overall, one of the better TAs in the math dept.
